

Erasmus+

# Grow

from seeds

## ERASMUS PLUS FUNDED PROJECT

### BACKGROUND

The Grow from Seeds project intends to provide a programme designed to foster intercultural dialogue in Primary Schools recognising European Parliament priorities to address anti-social behaviour through social cohesion and inclusion, active citizenship and the empowerment and participation of pupils.

The methodology used to deliver this education programme will adopt multiple strands of Creative Drama (storytelling), visual arts and performing arts which are proven to be highly motivating, multi-sensory and active learning tools. The objectives of this project are to address knowledge gaps, by using innovative methods and ways of outreach and delivery, to provide both pupils and teachers with new learning opportunities.

## AIMS

Our aims are:

- To develop an E-Book on Intercultural Education, which addresses the importance of inclusion in primary schools from the perspective of all participating countries
- To create a play that will incorporate the stories from children in all partnering schools. The result of this will be a translatable model of the play that can be staged anywhere in Europe
- To provide learning modules for teachers and their pupils. We will also create a handbook which will outline the methodology developed, and provide step by step guidance on how to implement the innovative education programme in primary schools
- To provide a platform for sharing knowledge. The knowledge generated throughout the project will be collated and reviewed in the context of learnings and feedback
- To deliver the education programme in partnering primary schools
